

Hello. I know this is a hot issue for a lot of people and I'd like to thank you for your patience in listening. I'm a disabled dad. I live in the peaceful community of Pittsford, about an hour south of Burlington. My wife and I are both responsible gun owners. I'm no longer able to enjoy shooting sports like I used to but I can still operate a light-caliber pistol with my good arm. I carry one for the same reason that many people keep a fire extinguisher in their homes. If something horrible ever does happen and my family is under immediate threat, I'll need the right tool to protect them right then and there. When so much of the rest of the country has gone crazy with gun control--and has so little to show for it--I've been so glad to have my rights unfringed here in the Green Mountains. Please don't let that change. I know the people who want to change it use words like "common sense" and say it's just a little change, but the reality is that it's a hole in the dam. Please keep that dam secure. Please keep our freedom intact. Please reject any and all gun control initiatives here in the great state of Vermont.

Thank you,

Henry Lampman
